Source: ANES
Note: Dependent variables are 0-100 thermometer ratings coded on a 0-1 scale.
The racial resentment battery does not appear in the 1996 ANES. The Dole analysis, therefore, uses 1994 measurements of racial resentment, party identification and ideology, and it includes only panel respondents who were interviewed in both 1994 and 1996.
Only the "no special favors" and the "less than they deserve" racial resentment items were included in the 1998 ANES. For compatibility purposes, the resentment scale used in the 2000 analysis also includes just those two items.

Table A4.5a: (OLS Regression) Predictors of Hillary Clinton Favorability Ratings by Democrats

	Jan '08	March	September	Nov '09
Racial Resentment	.090	.183	.099	-.052
	(.050)	(.053)	(.041)	(.034)
Ideology	-.094	-.191	-.177	-.161
	(.056)	(.060)	(.046)	(.038)
Education	.123	.122	.026	.006
	(.045)	(.049)	(.038)	(.031)

	(.179)	(.187)	(.663)	(.456)
Education	.409	-.565	-.399	.589
	(.124)	(.124)	(.400)	(.298)
Age	-.006	.003	.008	.027
	(.002)	(.002)	(.006)	(.005)
Black	-.485	-2.00	-.886	-3.67
	(.134)	(.162)	(.336)	(.716)
Male	.417	-.055	-.150	-.084
	(.065)	(.065)	(.224)	(.160)
South	.032	.298	.714	.838
	(.069)	(.070)	(.253)	(.162)
Observations	9860	9916	907	1706

Source: CCAP panel respondents interviewed in March and October 2008; 2004-2008 ANES.
Note: Dependent variables are coded 1 for Republican vote intention and 0 for Democratic vote intention.
CCAP analyses use October measures of Muslim favorability, partisanship and ideology, and utilize the
March 2008 measure of McCain vote preference.

Table A7.4: (Logistic Regression) Predictors of Barack Obama Vote Preference in the Primaries and General Election

	Primary Vote Preference		General Election Vote Choice	
	CCAP	ANES	CCAP	ANES
Racial Resentment	-1.98	-2.27	-3.89	-3.09
	(.163)	(.479)	(.180)	(.313)
Muslim Favorability	1.22		2.38	
	(.159)		(.157)	
Muslim Affect		1.02		3.19
		(.473)		(.522)
Partisanship	1.37	.182	-4.90	-5.50
	(.162)	(.471)	(.130)	(.374)
Ideology	-.310	-.499	-4.11	-3.07
	(.177)	(.545)	(.222)	(.579)
Education	.302	.125	-.004	-1.31
	(.131)	(.407)	(.143)	(.391)
Age	-.017	.005	-.005	-.013
	(.002)	(.007)	(.002)	(.006)
Black	1.32	1.67	1.28	3.73
	(.116)	(.316)	(.200)	(.115)
Male	.321	.077	.026	.148
	(.069)	(.207)	(.073)	(.200)
South	-.199	-.042	-.368	-.333
	(.074)	(.219)	(.079)	(.203)
Observations	4514	527	11550	1391

Source: CCAP panel respondents interviewed in March and October 2008 (Column 1); CCAP panel respondents interviewed in October and November 2008 (Column 3); 2008 ANES.
Note: Dependent variables for the primaries are coded 1 for Obama vote preference and 0 all other Democratic candidates; dependent variables for the general election are coded 1 for Obama vote choice and 0 for McCain vote choice.
CCAP primary analysis uses October measures of racial resentment, Muslim favorability, partisanship and ideology, and it utilizes the March 2008 measure of Obama vote preference; CCAP general election analysis uses October measures of racial resentment, Muslim favorability, partisanship and ideology, and it utilizes the November 2008 measure of Obama vote choice.

Table A7.5: (Logistic Regression) Predictors of Barack Obama Vote Choice in the General Election

	Don't Think Obama's a Muslim	Think He's a Muslim
Racial Resentment	-3.89	-2.51
	(.198)	(.548)
Muslim Favorability	1.82	2.29
	(.175)	(.446)
Partisanship	-5.05	-4.03

	(.083)	(.093)	(.122)	(.166)	(.205)
Survey Year	.057	-1.82	.058	-1.41	
	(.076)	(.093)	(.116)	(.145)	
Observations	5654	4347	1705	1660	1153

Source: Times Mirror/Pew Values Study Merged File: 1987, 1988, 1990, 1992, 1997, 1999, 2003, 2007, 2009.
Note: Dependent variables are coded 1 for approval and 0 for disapproval.
Partisanship is a five-category variable ranging from 0 (Democrat) to 1 (Republican); survey year is coded as a dummy, taking on a value of 1 for the latter survey year in the pooled samples.
African-Americans are excluded from the analysis.

Table A8.2: (Logistic Regression) Predictors of Confidence in President Obama and in Democratic Leaders in Congress to Fix the Economy

	Congressional Democrats	President Obama
Racial Predispositions	-.880	-3.11
	(.318)	(.363)
Partisanship	-3.65	-3.65
	(.207)	(.222)
Ideology	-.637	-.894
	(.264)	(.299)
Education	-.035	.198
	(.184)	(.205)
Age	-.014	-.005
	(.003)	(.003)
Male	-.488	-.265
	(.112)	(.122)
South	.106	.308
	(.121)	(.133)
Observations	671	671

Source: Pew Values Study, April 2009.
Note: Dependent variables are coded 1 for having at least "a fair amount of confidence" and 0 for all other responses (see measures appendix for variable wording and codes).
Analysis excludes African-Americans.

Table A8.3: (Logistic Regression) Predictors of Barack Obama Favorability and Vote Preference

	Obama Favorability			Obama Vote Preference		
	March '08	Nov '08	Nov '09	March '08	Nov '08	Nov '09
Racial Resentment	-2.96	-3.28	-3.29	-3.92	-3.97	-3.69
	(.235)	(.304)	(.280)	(.305)	(.367)	(.388)
Partisanship	-2.14	-3.25	-4.27	-2.81	-4.42	-5.14
	(.195)	(.227)	(.239)	(.232)	(.274)	(.313)
Ideology	-1.73	-3.20	-2.01	-3.16	-3.57	-3.35
	(.255)	(.318)	(.303)	(.333)	(.396)	(.417)
Education	.732	.097	.672	.444	.815	.425
	(.194)	(.234)	(.228)	(.239)	(.284)	(.308)
Age	-.010	-.007	-.002	-.006	-.019	-.024
	(.003)	(.004)	(.004)	(.004)	(.005)	(.005)
Male	-.068	.026	-.154	-.087	.185	.007
	(.108)	(.132)	(.126)	(.134)	(.158)	(.170)
Black	.482	.521	.341	1.40	1.79	1.42
	(.198)	(.285)	(.242)	(.315)	(.409)	(.412)
South	-.267	-.107	.036	-.274	-.445	-.177
	(.114)	(.136)	(.133)	(.141)	(.163)	(.175)
Observations	2692	2536	2712	2460	2468	2407

Source: CCAP panel respondents interviewed in March 2008, November 2008 and November 2009.
Note: Dependent variables for favorability ratings are coded 1 for having at least a "somewhat favorable" impression of Obama and 0 for all other responses; dependent variables for vote preference are coded 1 for Obama and 0 for McCain(2008)/generic Republican (2009).
Analyses use March 2008 measures of racial resentment, party identification and ideology.

Table A8.4: (Logistic Regression) Predictors of Barack Obama Favorability and Vote Preference

	Obama Favorability			Obama Vote Preference		
	March '08	Nov '08	Nov '09	March '08	Nov '08	Nov '09
Racial Resentment	-2.56	-2.63	-2.92	-3.37	-3.19	-3.13
	(.267)	(.352)	(.317)	(.346)	(.411)	(.454)
Muslim Favorability	1.74	2.62	1.74	2.54	3.04	2.69
	(.244)	(.300)	(.279)	(.308)	(.351)	(.371)
Partisanship	-2.00	-3.00	-4.29	-2.45	-4.08	-5.12
	(.217)	(.255)	(.269)	(.261)	(.301)	(.360)
Ideology	-1.68	-3.58	-1.82	-3.59	-3.95	-3.58
	(.292)	(.386)	(.344)	(.392)	(.460)	(.493)
Education	.677	-.177	.563	.185	.628	.488
	(.216)	(.270)	(.254)	(.271)	(.316)	(.354)
Age	-.006	.000	.000	-.002	-.011	-.021
	(.004)	(.005)	(.005)	(.005)	(.006)	(.006)
Male	-.099	.143	-.116	-.008	.269	.119
	(.118)	(.149)	(.138)	(.149)	(.174)	(.191)
Black	.365	.935	.304	1.26	1.83	1.25
	(.219)	(.350)	(.271)	(.336)	(.448)	(.449)
South	-.268	-.199	-.011	-.258	-.402	-.323
	(.125)	(.153)	(.146)	(.158)	(.180)	(.198)
Observations	2427	2303	2446	2228	2246	2187

Source: CCAP panel respondents interviewed in March 2008, October 2008, November 2008 and November 2009.

Note: Dependent variables for favorability ratings are coded 1 for having at least a "somewhat favorable" impression of Obama and 0 for all other responses; dependent variables for vote preference are coded 1 for Obama and 0 for McCain (2008)/generic Republican (2009).

Analyses use March 2008 measures of racial resentment, party identification and ideology, and utilize the October 2008 measure of Muslim favorability.

Table A8.5: (Logistic Regression) Predictors of Saying President Obama was Born in the USA

	Model 1	Model 2
Racial Resentment	-2.01	-1.23
	(.279)	(.580)
Muslim Favorability	2.30	2.50
	(.229)	(.466)
Partisanship	-1.65	-1.13
	(.206)	(.412)
Ideology	-1.79	-1.77
	(.288)	(.580)
Education	1.22	.525
	(.208)	(.429)
Age	-.014	-.013
	(.004)	(.008)
Black	.009	-.397
	(.246)	(.507)
Male	.364	.085
	(.113)	(.227)
South	-.184	-.082
	(.115)	(.238)
Fox News Watcher		-.992
		(.274)
Observations	2423	620

Source: CCAP panel respondents interviewed in October 2008 and November 2009 (one-quarter of the participants in the November 2009 survey received the news source question).
Note: Dependent variables are coded 1 for saying Obama was born in the USA and 0 for all other responses.
The variable "Fox News Watcher" is coded as a dummy, taking on a value of 1 if respondents received most of their televised information about national and international affairs from the Fox News Chanel and a value of 0 for all other televised news sources.
Analyses use October 2008 measures of racial resentment, Muslim favorability, partisanship and ideology.

Table A8.6: (Logistic Regression) Predictors of Health Care Opinions in December 2007 and November 2009

	Model 1		Model 2	
	Dec '07	Nov '09	Dec '07	Nov '09
Racial Resentment	2.16	3.41		
	(.308)	(.335)		
Muslim Favorability			-.607	-1.55
			(.303)	(.306)
Partisanship	2.30	2.32	2.68	2.40
	(.224)	(.253)	(.247)	(.268)
Ideology	2.46	2.34	2.85	3.06
	(.321)	(.330)	(.336)	(.348)
Education	.501	.270	.222	.023
	(.271)	(.293)	(.284)	(.321)
Age	.018	.018	.017	.012
	(.005)	(.005)	(.005)	(.005)
Black	.461	.214	.085	-.456
	(.245)	(.261)	(.236)	(.261)
Male	1.04	.495	.993	.409
	(.137)	(.145)	(.142)	(.150)
South	-.050	-.028	.064	.163
	(.141)	(.147)	(.149)	(.157)
Observations	2497	2488	2197	2188

Source: CCAP panel respondents interviewed in December 2007, March 2008, and November 2009. (Model 1); CCAP panel respondents interviewed in December 2007, March 2008, October 2008, and November 2009 (Model 2)

Note: Dependent variables are coded 1 for saying health care should be voluntarily left up to individuals and 0 for all other responses (see measures appendix for variable wording and codes).

Analyses use March 2008 measures of racial resentment, party identification and ideology and utilize the October 2008 measure of Muslim favorability.

Table A8.7: (Logistic Regression) Predictors of Supporting Sonia Sotomayor's Confirmation by the U.S. Senate

	Stripped Version	Obama Frame
Police Discrimination	-.536	-1.52
	(.341)	(.371)
Partisanship	-1.68	-1.27
	(.327)	(.308)
Ideology	-2.50	-3.18
	(.591)	(.618)
Education	.726	.257
	(.351)	(.430)
Age	.009	.006
	(.006)	(.007)
Male	-.237	-.134
	(.229)	(.234)
Latino	.653	.085
	(.498)	(.329)
South	.356	-.440
	(.229)	(.258)
Observations	450	439

Source: CNN/ORC Poll, July 31-August 3, 2009.
Note: Dependent variables are coded 1 for supporting Sotomayor's confirmation and 0 for all other responses.
Partisanship is a five-category variable ranging from 0 (Democrat) to 1 (Republican).
African-Americans are excluded from the analysis.
